PROFESSIONAL SUMMARY

Backend Developer with experience in building scalable web applications using Laravel, PHP, and MySQL. Skilled in designing RESTful APIs, authentication and authorization systems, database architecture, and role-based access control (RBAC). Experienced in developing HR Management and Learning Management Systems (LMS) following clean architecture principles and industry best practices. Passionate about writing maintainable code, optimizing performance, and building secure backend solutions.

TECHNICAL SKILLS

Backend Development PHP, Laravel, RESTful API, Authentication & Authorization, Laravel Sanctum, Spatie Laravel Permission, RBAC

Database MySQL, Database Design, Query Optimization, Eloquent ORM

Software Architecture MVC Architecture, Repository Pattern, Service Pattern

Tools Git, GitHub, Postman Software, JIRA

Frontend Knowledge HTML, CSS, JavaScript, Bootstrap, ReactJS

EXPERIENCE

Freelance Backend Developer

'22 — Present

Nahfad

Remote

- Developed and maintained web applications using Laravel, PHP, and MySQL.
- Built RESTful APIs and backend features for scalable solutions.
- Improved application performance and user experience.

Teaching Assistant

'23 — '25

New Mansoura University

Mansoura, Egypt

- Assisted in teaching computer science subjects
- Explained programming concepts to students
- Supported lab sessions and academic projects

Full Stack Web Developer

'21 — '22

[Attractionme](#)

- Built and maintained web applications
- Developed backend using Laravel & PHP
- Improved performance and database optimization

PROJECTS

HR Management System [Link](#)

Present

- **Project Summary:**

Developed a Human Resource Management System to manage employees, departments, attendance, leave requests, payroll, and role-based access control. Built secure RESTful APIs and optimized database relationships for efficient employee management.

- **Key Features:**

- Employee and Department Management
- Attendance & Leave Management
- Payroll Management
- Role-Based Authorization
- Authentication & Secure APIs
- Dashboard and Reporting
- CRUD Operations with Validation

- **Tech Stack:**

Laravel, PHP, MySQL, REST API, JWT Authentication, Eloquent ORM, Git, Postman

Learning Management System (LMS) [Link](#)

Present

- **Project Summary:**

Developed a Learning Management System that enables students to enroll in courses, access lessons, watch videos, submit assignments, take quizzes, and track learning progress. The platform also allows instructors and administrators to manage courses and monitor student performance.

- **Key Features:**

- - Authentication & Role Management (Admin, Instructor, Student)
 - Course, Section, and Lesson Management
 - Video, PDF, Article, Quiz, Assignment, and Live Session Support
 - Student Enrollment System
 - Quiz and Assignment Submission
 - Progress Tracking
 - Secure RESTful APIs
 - File Upload & Media Management

Tech Stack:

Laravel, PHP, MySQL, JWT Authentication, REST API, Eloquent ORM, Git, Postman

EDUCATION

Bachelor in BACHELOR OF COMPUTER & COMMUNICATIONS ENGINEERING,
MANSOURA UNIVERSITY (GPA: 3.8 / 4.0)

'16 — '21
Mansoura, Egypt

- Graduation Project:
Developed a COVID-19 Diagnosis System using Data Mining Techniques.
Achieved an A+ in the graduation project.
